WELCOME FELLOW CATTLEMEN

We invite you to our 2026 production sale. We are excited to offer a great line up of Bulls and Females. It is such an exciting time to be in the cattle business! Our true passion is to develop and offer very high-quality cattle for our operation and offer them to you. We welcome you to the ranch any time prior to the sale day to view the cattle. We value our customers and look forward to assisting you in your selection of your herd sire or replacement females.

We have several sire groups to offer this year. Leading off is the Ellingson Prosper sire group. The Prosper bull has really stamped the depth of rib and thickness into his sons. His flush group goes back to one of our favorite cow families the Rita's with our 13-year-old H312 cow, who is worth building a herd on. These bulls should add an extra punch to their progeny and not sacrifice growth for calving ease. The Ellingson Prolific is our largest sire group and has a pen standout son N12 Prolific, which is a 3/4 brother to the last years high-selling bull Profound N58 son who is working in Colorado on the Mustang Ranch. Our EA Profound 2022 sire group is led by our Profound N42 who goes back to Hinman Angus Blackcap Lady 1602, Cowboy Up's Dam. The Ellingson Lakota sire group will have our N6 Lakota bull who is a sleep all night curve bending son that has been hitting the scales hard from weaning on up to sale day. N6 which also traces his powerful maternal lineage back to our H312 Rita cow. Also in that sire group will be a powerful flush from our 1025 Rita cow, these bulls are the type that adds pounds calf crops with added frame and length. The S Armstrong sons will offer remarkable growth spreads and body length making them true standouts in the pens.

This year we will be offering 13 handpicked heifers from the heart of our herd. The bred heifers have been bred to our herd sires Ellingson Pilot 3421 and Ellingson Hi Range 4009. These heifers are out of sires such as Ellingson Profound 2022, Sitz Resilient and Ellingson Prolific. They will be great investments into any cowherd.

All bulls have been fertility and HD50K tested for genetic traits and parentage tested. Our valued customers can feel confident of what they are purchasing. Also, the yearling heifers have been vaccinated and HD50K tested and the bred heifers have been GeenSeek tested as well.

Again, this year we will have cattle in the sale ring during the auction. Our sale will be broadcasted on DVAuction. Please register ahead of the sale if bidding on DVA. We will also take pre-sale bids or calls during the sale.

We want to thank you for considering using our genetics. Please join us prior to the sale for a fantastic lunch. We want to especially thank all of our family and friends for helping put all this together. Please feel free to contact us with any questions. The future looks bright in the cattle business and we want to be a trusted source of high quality genetic needs for our valued customers.

Sincerely,

The Hallstrands
